My name is Michael Fryer. I am a software developer with over 5 years of on-and-off web development experience. I am currently pursuing a Masters in Applied Data Science at Frankfurt School of Finance and Management with an expected graduation date of Summer 2027. After finishing my first year in this program, I am excited about the opportunities that the field of data science has to offer. I have previously worked in the games industry for Heavy Iron Studios in Manhattan Beach, CA as an Associate Game Developer. During my tenure at Heavy Iron, I was the lead UI developer on PacMan: Mega Tunnel Battle, our UE4 game for Bandai Namco. In addition to my responsibilities on the game UI, I also created the Live Ops portal that Bandai Namco would use once the game was shipped. This Live Ops portal was built using Django and deployed via AWS.

I believe I am a qualified candidate for this position as outlined in my attached resume. In addition to the skills and job experience listed in my resume, this pivot in my professional career has allowed me to develop a unique set of skills, including software development, video editing, communication skills, project management, and data analysis. Furthermore, my ongoing education in data science equips me with the latest analytical tools and methodologies, enabling me to contribute effectively to data-driven decision-making processes within your organization. I am excited about the opportunity to bring my diverse skill set and experiences to the table and contribute to ongoing and future projects.

I look forward to hearing from you about the position and my qualifications. My website is available at https://mfryer.us. Please contact me at +49 173 3589561, or at michael.d.fryer@gmail.com for further questions regarding my qualifications. Thank you for your time and the potential opportunity to further discuss my qualifications for this position.

Sincerely,
Michael Fryer

MICHAEL FRYER

Software Engineer & Data Scientist | Master's Candidate

EDUCATION

M.Sc. in Applied Data Science
Frankfurt School of Finance & Management
September 2025—Present
Frankfurt am Main, Germany

B.Sc. in Software Engineering and B.Sc. Computer Science
Montana Tech
August 2015—May 2019
Butte, MT, USA

EXPERIENCE

Machine Learning Teaching Assistant
Frankfurt School
January 2026—Current
Frankfurt am Main, Germany

- Enhanced course lectures by providing additional exercises to help students understand complex machine learning concepts.
- Provided personalized support to students by answering questions and offering guidance on exercises.

Associate Game Programmer
Heavy Iron Studios
October 2019—July 2021
Manhattan Beach, CA, USA

- Worked closely with artists to transform their UI mock-ups into a functional user experience.
- Extended Unreal Engine's replication graph to meet our network performance requirements.
- Created Unreal Engine patches that included necessary features for a full-game launch.
- Implemented the Live Operations portal using Django to satisfy the business requirement of a live-service game.

Software Engineer
Butte Food Bank
Fall 2018—August 2019
Butte, MT, USA

- Created inventory and reporting software for the Butte Food Bank titled FRED.
- Developed the front-end application of FRED using WPF Forms.

PROJECTS

Arcadia Website *| NextJS, Vercel, Neon*
A NextJS application that leverages Google's YouTube api to aggregate video uploads from members of Arcadia and post to social media.

Urban Mobility Risk Analysis *| Python, Pandas, Contextily, DBScan*
An analysis on traffic accidents in Frankfurt am Main, Germany. This project uses clustering to identify high-risk areas in the city and visualizes the results using Contextily.

STRENGTHS

Python | TypeScript | C/C++ | HTML/CSS | NextJS | Git | VS Code | Visual Studio | Pandas | NumPy | Sklearn

Communication | Organization | Problem Solving | Attention to Detail | Motivation & Leadership

LANGUAGES

English — Native
German — Taking Courses — A2

MOST PROUD OF

Pac-Man: Mega Tunnel Battle
Shipped my first major software release of my career with my team.

Arcadia Website
Created arcadia.yt as a hobby project for my community.

Outstanding Achievement
Awarded by the department of computer science at Montana Tech.
